- 🌊 Compact design
- 🌊 Fits almost anywhere
- 🌊 Quick change system
- 🌊 Threaded cartridges
- 🌊 Housing replaced with filter
- 🌊 USA design
- 🌊 USA Construction
- 🌊 Hand built
- 🌊 Factory tested
- 🌊 Assembled in Australia
- 🌊 10 YEAR WARRANTY

HydROtwist Twin Under Sink Filtration System

This complete water filtration system comes with everything you need to carry out the install yourself, or by a local plumber.

Don't have a plumber?
- Not to worry, Tru Water Filters has experienced technicians ready to install your new water filter system.

The HydROtwist twin under sink system will effectively remove the following: Chlorine, Chloramine, Taste, Odour, Sediment, rust, dirt, some heavy metals and any particulate mater. Thanks to the 1 micron rating on the carbon block (installed in the second stage) - this system will also remove giardia, cryptosporidium and other cysts.

The Filters:

The HT2000 is supplied with high quality filters made in the USA exclusively for HydROtwist. The first stage is a granular carbon pre filter, and the second stage is a carbon block. Both filters are made from activated coconut shell carbon, for a sweeter, cleaner tasting water.
